In-house developments for professionals

- **Production with vision:** In-house production in Serbia - efficient, modern and reliable.
- **Technology at work:** laser cutting, printing and welding - all under one roof.
- **Fast delivery to the customer:** Weekly transport ensures short delivery times and high availability.
- **Flexible & fair:** Attractive prices, short distances and customised solutions.
- **A direct line to production:** Short communication channels - fast, personal and without detours.

Regionally manufactured - personally looked after

- **Production with a local flavour:** processing Swiss wood - sustainable, high-quality, regional.
- **Handles with added value:** Our Anstilerei - Swiss craftsmanship for tools with character.
- **Customised toolboxes:** Individually equipped - perfectly tailored to the application.
- **In-house lettering & planning:** From standard signs to customised solutions - everything directly from our studio.
- **Your advantage - everything from a single source:** regionally manufactured, flexibly planned and personally supported.

Long-standing partnerships - trust connects

Reliable partnerships

Long-term cooperation at eye level.

Trust connects

We have maintained stable partnerships for generations. Fair, open and cooperative in our dealings.

Long-term thinking

Our collaboration is designed to be long-term and sustainable.

Success through proximity

Direct communication for efficient solutions.

Focus on customer satisfaction

We deliver what you need - when and where you need it.

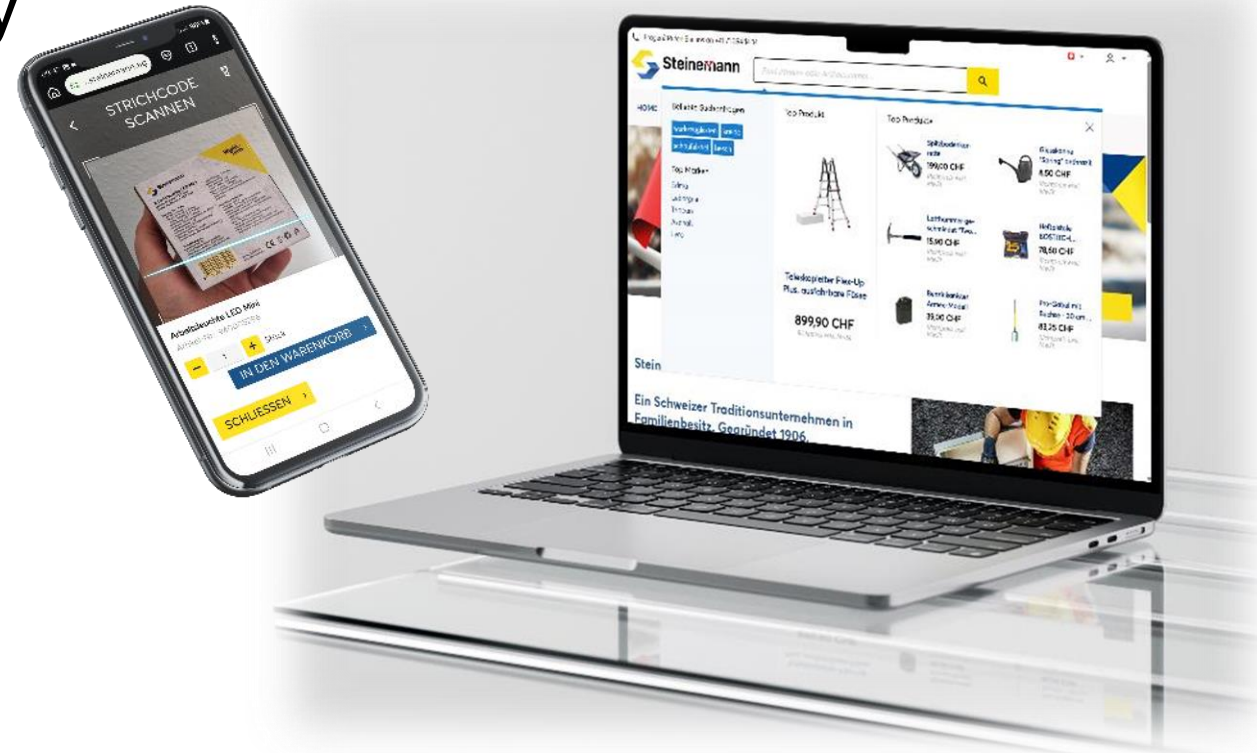

Efficient process

Careful order picking, structured processes.

Ordering and selling made easy

- **Simply order:** All products in the online shop - so you can order conveniently around the clock.
 - **New:** Save yourself the trouble of searching and use the integrated barcode scanner to add products directly to your shopping basket.
- **Sales support:** data sheets on our products, flyers for sales campaigns and catalogues on special topics - so that you can sell optimally.

Steinemann Group - Tradition and innovation since 1906

Tradition meets innovation

Steinemann AG is part of the Steinemann Group - a Swiss family business founded in Flawil in 1906 as a Swiss family business founded in Flawil in 1906 as a blacksmith's workshop.

Continuous further development

The Group has been adapting to market requirements for over 100 years - with innovative strength, entrepreneurial dynamism and a hands-on mentality.

Broadly positioned

Today, the Group includes Steinemann AG and its own production facilities in Serbia as well as companies in the fields of district heating, textile waste handling and indoor air disinfection.

Steinemann Group – Tradition and innovation since 1906
